Canadian Urethane Foam Contractors Association

3280 Wharton Way
Mississauga, ON L4X 2C1

Mr. Andrew Cole,

As of the date of this letter, the following *Certification Organizations* are currently recognized by the Canadian Construction Materials Centre (CCMC) for the administration of a Field Quality Assurance Program in accordance with CAN/ULC-S705.2, as required by the 2015 National Building Code of Canada, sentence 9.25.2.5.(1) for the installation of medium density spray applied polyurethane foam thermal insulation:

- Canadian Urethane Foam Contractors Association (CUFCA)
- Morrison Hershfield Quality Assurance Program (MH QAP)
- Urethane Foam Consultants (UFC)

Although CCMC does not yet require COs to be accredited to ISO 17024 "General requirements for bodies operating certification of persons" as prescribed by CAN/ULC-S718-13, CCMC would require this accreditation to be obtained through the Standards Council of Canada or an equivalent registrar who is a signatory of the International Laboratory Accreditation Cooperative's Mutual Recognition Arrangement. More information is available at <http://ilac.org/>.

Questions regarding the acceptance of any Certification Agency for CCMC Evaluation purposes can be directed to me at the coordinates below.

Best Regards,

Dino Zuppa, Ph.D.

Manager
Canadian Construction Materials Centre (CCMC)
Canada's official evaluation service for building officials and the construction industry since 1988
NRC Construction | National Research Council Canada
1200 Montreal Road, Building M-24, Ottawa, ON K1A 0R6

Gestionnaire
Centre canadien de matériaux de construction (CCMC)
Service officiels d'évaluation du Canada pour les agents du bâtiment et de l'industrie de la construction depuis 1988
CNRC Construction | Conseil national de recherches Canada
1200, chemin de Montréal, Edifice M-24, Ottawa, ON K1A 0R6
